COMPUTER NETWORKING
Information Technology Department

CISCO
NETWORKING
ACADEMY

Do you like to work on computers? Do you have the desire to understand the inner workings of a network? Would you like to learn to manage multiple devices at once? If so, we have a place for you in our Computer Information Systems program!

Computer Information Systems covers a broad range of career opportunities. Our students have gone on to become network administrators, system analysts, web developers, cloud architects, computer forensic investigators, and more! Companies large and small need employees skilled in CIS-related specialties, resulting in ample opportunity for a successful career.

TAKE YOUR COMPUTER SKILLS TO THE NEXT LEVEL!

THE CIS FIELD IS FAST-PACED AND ALWAYS EVOLVING. TO BE SUCCESSFUL, YOU DON'T JUST NEED TO LEARN THE CURRENT TECHNOLOGIES. YOU NEED THE SKILLS TO HELP YOU KEEP UP. OUR PROFESSORS ARE NOT ONLY TRAINED AND CERTIFIED, BUT THEY ALSO HAVE REAL-WORLD EXPERIENCE IN THE CIS INDUSTRY. THAT MEANS YOU'LL BE TAUGHT BY PROFESSIONALS WHO KNOW WHAT IT TAKES TO SUCCEED. UPON COMPLETION OF THE CIS PROGRAM AT SNOW COLLEGE, YOU'LL HAVE ALL THE TOOLS YOU NEED TO THRIVE IN THIS RAPIDLY GROWING CAREER.

The Computer Information Systems networking program at Snow College focuses on industry leading skills including:

- CISCO Essentials
- Routing and Switching
- Wireless Networking
- VoIP Networking
- Network Security
- Internetworking

In addition to gaining the knowledge and skills necessary to certify in CISCO and CompTIA, students who earn a Certificate of Completion or an AAS degree in Computer Information Systems/Computer Networking will learn many other marketable skills. Below are just a few of the things you can expect to learn through the CIS program at Snow College:

- IT Essentials
- Networking
- Internetworking
- Network Management
- Project Management
- Security in Networking

YOU CAN COMPLETE YOUR EDUCATION AND BE ON YOUR WAY TO A CAREER IN NO TIME!
