Joined Via Zoom: Roger Thompson, Carson Howell

Absent: Russell Buttars, Brik Eyre, Kelsey Berg, Greg Lambourne, Jim Tatton, Joe Strain, Randy Cox

Call to Order and Welcome: Rob Behunin

Short discussion on the success of Snow Day on The Hill

Approval of Minutes: minutes from 11-13-2024 Foundation Board Meeting were approved.

President's report and Questions:

Legislature Presentation Annual Budget Report

The presentation was well received by the committee members.

10% budget reallocations passed. The effect on Snow will be \$1.67 million over three years. Their goal is to move money from programs and areas that are not efficient or do not feed the workforce to programs that do feed the workforce or lead to higher paying jobs. We are working on a plan to put good systems into place to work through this.

Capital projects are less desired. Our allotment for Richfield will be \$700,000 lower.

Track record

Enrollment went up from Spring '24 5.5%, retention up 2.5%

There is a desire to delineate the roles of the institutions. We are communicating our role and campaign to keep other institutions in their role to minimize the issues caused by other institutions reaching into our role. We are working with other community colleges in this effort.

We are in a good position with athletics with successful teams. Our BB team is #1 in the nation. 74.7% of our athletes are from Utah. On signing day for football 8 or 9 of our players were in a press conference and waiting to decide which offer to take.

Academically, we have almost double completion rates of other Community Colleges across the country, and we have great opportunities that enrich our student experience and contribute to their success when they transfer. We have a positive reputation.

Board Project Updates:

Rural scholarship update:

Board Goal to raise 250K for FY. We need an additional \$232,000 by June 30 to meet the goal. Overall, we are nearly halfway to our fundraising goals.

Top 100/Athletics prospects list:

Assignments made at the last meeting. We chose 10-15 to work with immediately. Discussion ensued on the progress being made and the best way to approach them.

Some new Board member recommendations were discussed and voted on. Lindsey Cuff and Travis Nielsen will be invited to join the Board.

Discussion on keeping better contact with alumni.

Capital projects

Washburn: Presented to Transportation/infrastructure committee, it was well received, and we can start this summer. There is already money set aside.

Nephi: on hold

Social Science Building: In the planning stages: met with architect (DCBO) and saw external drawings. Once we have renderings we can work on naming rooms, 25,000 sq. ft.

Urgent Care Building: It is going up quickly. Mental health counseling will be in there. It should be done by fall.

Investment Portfolio/Financial Report

We continue to perform below the index we compare to, but overall, we have had the best growth we have seen: \$28 million. Additional funds have been added: Wade money (will begin distributing this fall) and a low yield bank account. Investments are healthy, we use the income for scholarships and now distribute more scholarships than ever. New donations policy is to give the funds a full year before we begin pulling from it. We use up to 4% of the investment. Currently, about \$1.2 million a year in gains.

No new business

Upcoming events

Garett and Natalie Bolles: Feb 21 at 10:30 am. He will give a presentation. Inviting local HS football teams, students, and athletes, etc. Luncheon planned with Student Support Services and others.

Scholarship luncheon:

March 18, donors/stewards meet with their recipients for that semester.

Additional events:

May 1: Richfield Graduation,

May 2: Ephraim Graduation

June 21: Alumni night at the Bees game

July: Legislative Days

August: Alumni golf tournament

September: Wrestling Golf Tournament in Richfield

Richfield Scholarship Benefit Dinner in Richfield

Discussion about the frequency of meetings. Do we need to meet more often to stay better engaged? The Executive Committee will take up this question.

Adjournment: meeting adjourned at 4:45 pm

Next Meetings: May 14th Ephraim Campus

August 7th River Oaks Golf Course, Sandy, UT 3-5 pm

November 12th location TBD

Dear members of the Rural Student Initiative,

I hope this letter finds you in good health and high spirits. I am writing to express my deepest gratitude for the incredible support and opportunities provided by the Rural Student Association. Your commitment to fostering education and community among students from rural backgrounds has made a significant impact on my academic journey and personal growth.

The resources, mentorship, and networking opportunities offered by the Association have been invaluable. I am particularly grateful for the financial assistance I received through your scholarship program. This support has alleviated some of the financial burdens associated with my education, allowing me to focus more on my studies and extracurricular activities. Your generosity has made a tangible difference in my life, and for that, I am sincerely thankful.

The Rural Student Association's dedication to promoting education, leadership, and community development is truly commendable. Your efforts are empowering students like myself to achieve our dreams and make meaningful contributions to society. I am proud to be associated with such a remarkable organization.

Once again, thank you for all that you do. I look forward to remaining an active member of the Rural Student Association and contributing to its mission in any way I can.

Warmest regards,

Valentina Martinez

My name is Ashton Miller and I am grateful to have received the Rural Student Scholarship. I was born and raised in Monroe Utah and I graduated from South Sevier High School with a 3.7 GPA, I grew up playing volleyball, basketball, and softball but my junior year I decided to try running track as well and did that for the last two years of high school, I loved my sports and always gave them my all. I completed 30 college credits from Snow college by the time I graduated from high school and have decided to come to Snow Richfield to continue working towards finishing my associate degree. I am starting my journey to becoming a secondary or higher education teacher. I would love to teach physical education along with some type of history class. I have always wanted to be a teacher and now I am in reach of achieving that goal thanks to this scholarship. I would love to teach 6th or 7th grade but would also be interested in a high school position if that is what is available faster. I am trying to get my bachelors degree in two or three years, so that I can get my teaching license faster. With that being said, after the 2 years at Snow college, I am wanting to look into Western Governors University to complete my courses as fast as possible and at the pace that I like! This scholarship will help me reach my goals of becoming a teacher by supporting me in paying for college and helping me save money for my future.

Ashton Miller

Thank You Letter

My name is Shane Arnoldsen, I come from a family of 11 kids, I am the youngest boy and I have 2 younger sisters. I have lived in Ephraim for my whole life besides the 2 years I lived in Arkansas serving a LDS mission. I was actually born in my home during a family reunion. So my love for Ephraim started at a very young age. I attended Manti High School and loved every minute of it. I tried to be as engaged as possible so I participated in student government, soccer, seminary council, and Ephraim Youth City Council.

I have 1 semester at Snow College under my belt and look forward to another. During the summer I am a Wildland Firefighter in Ephraim. This summer I was able to prevent wildfires right here in the mountains I grew up in. It has been a great opportunity but I am excited to get back to school. My ultimate goal in life is to be a successful father and husband. In order to do that I hold myself at a very high moral standard and try to avoid habits that would prevent me from accomplishing that goal. I plan on becoming a commercial pilot to provide for my future family. UVU has a great flight program so once I am done at Snow I plan on moving that way. I am beyond grateful for this scholarship and the people that have helped fund me to go to school. I will show my gratitude by earning exceptional grades and helping in my community.

My sincerest thank you's

- Shane Arnoldsen

Dear Rural Scholarship Committee,

I am extremely grateful to have received the Rural Scholarship and for all the amazing future opportunities it will provide for me.

I am the oldest daughter of Shelly Koyle and Ben Coray. My mother works as a substitute at the high school and my father is a civil engineer at Sunrise Engineering. My mother was raised in Kanosh, UT. I was born in West Jordan, UT and my family and I moved back to Kanosh about 4 years ago. I have absolutely loved living in a small town and all the opportunities it has given me throughout high school. I graduated high school with a GPA of 3.997 and an ACT score of 24.

Receiving a higher education has always been something I have valued and looked forward to. I graduated high school with 51 college credits completed from Snow College and received my Certificate of Completion for my general education. I plan to attend the 2024 Fall semester at Snow College where I will complete my Associate's Degree of Science. Afterward, I plan to attend either Utah State University or Utah Tech University. I find great interest in healthcare and plan to study in that field. I enjoy helping others in need and learning about the wondrous human body. I plan on exploring options in the medical field to find the best career fit for me. I have taken college classes from Snow College that will be applicable to the medical field and it has increased my interest greatly.

I would like to sincerely thank you for your generous donation towards my educational future. I am greatly appreciative of the help I have received and for all the amazing people who care to see others succeed. I plan to use this scholarship to its fullest extent and obtain my Associates while here at Snow College. Again, thank you. I appreciate it greatly.

Sincerely,

Sarah Coray
